Mitsubishi Trophy for FIA Production Cars in

2002-2003-2004-2005-2006-2007-2008-2009-2010

Italian Manufacturers' Champions

Group N Italian Champions 2007-2008-2009-2010

WORLD RALLY CHAMPION 2009-2010

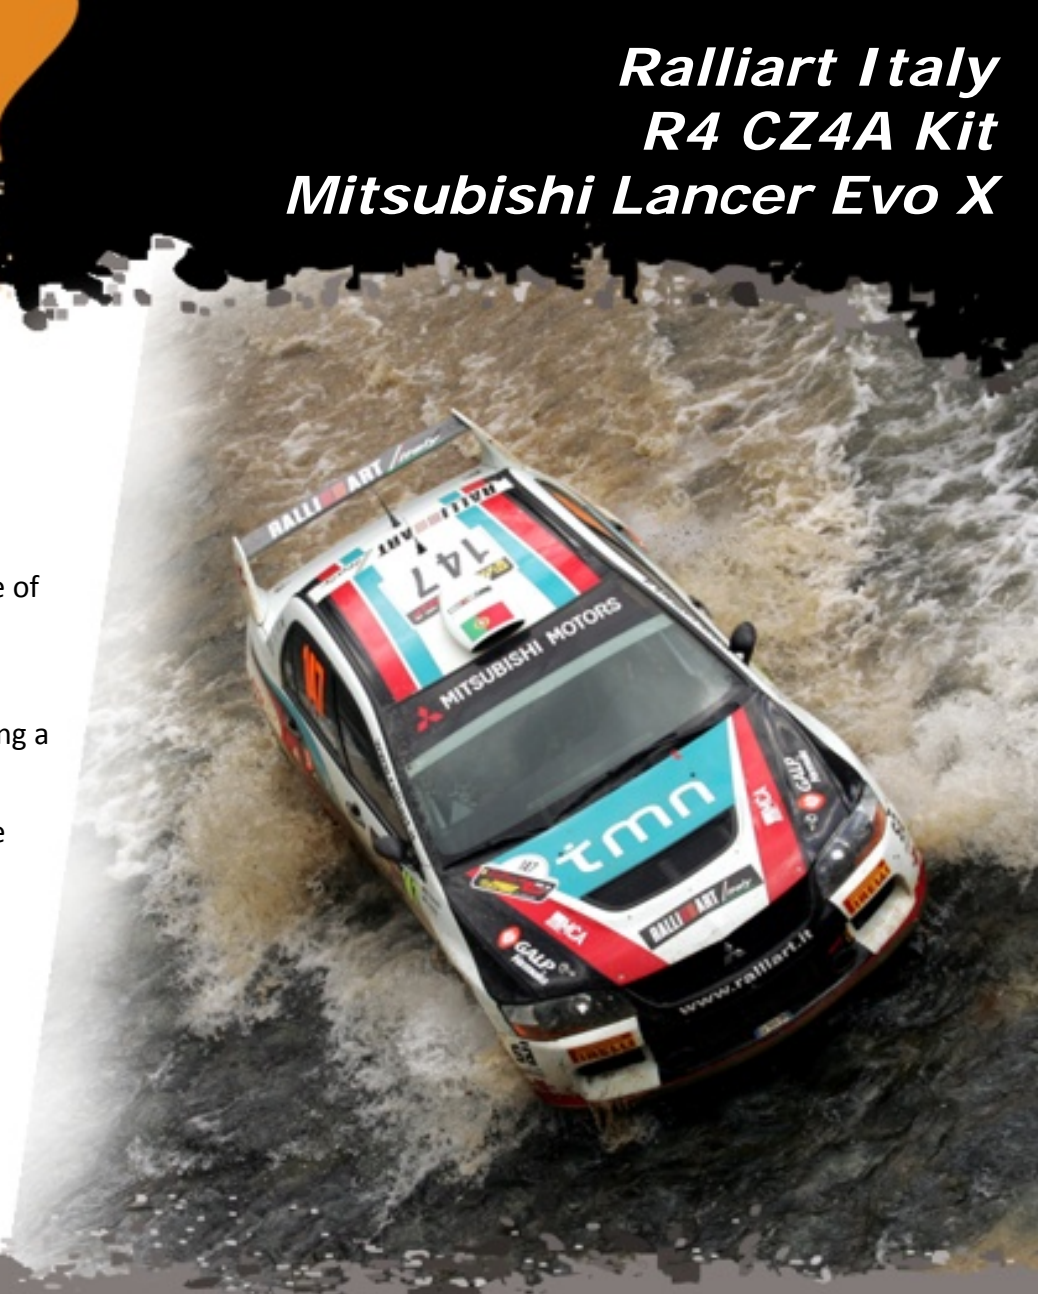

... R4 the New Era of GR.N .

After 2 World Rally Championship Titles for Production Cars, Ralliart Italy together with the FIA and MMC, started a discussion regarding the future of GR.N and the result of this long term deal has been called R4...

R4 philosophy has the aim of giving to all Mitsubishi's rally customers the possibility of upgrading their car with the minimum of cost whilst providing a very high performance kit, reducing the weight of the car, improving the weight balance and the gaining in all aspects where a GR.N car, due to the current regulations, loses out to the S2000 competition.

The CT9A R4 Kit and CZ4A R4 Kit doesn't need any modification to the bodysell, so it's very easy to install, simply follow our instructions...

... Are you ready for the New Era?
